

YUBIN GLOBAL

Start your smart outdoor journey

About Us

At the beginning of its establishment in 2016, Yubin hoped to make people's outdoor sports more intelligent, convenient, and healthy through more intelligent products. So we developed smart clothing, smart sporting goods, smart sports accessories, these products. Through a global approach to trade, we communicate our products to every corner of the world in order to achieve our mission.

If you have an idea of your own, please contact us. We will help you translate your design ideas into actual products, spread your brand, and open up new markets and businesses in your country.

To provide the best quality service is our purpose, all for the sake of customers as the premise

Our Vision

We develop more intelligent products for people around the world to live more comfortable and healthy, so that outdoor activities and workers have a better experience is our biggest motivation

☐☐ Design requires constant innovation and exploration.

▶ R&d drives continuous development and progress.

📦 The quality and efficiency of the product determines survival.

📶 Pay our value for what customers want.

OUR QC&TEST

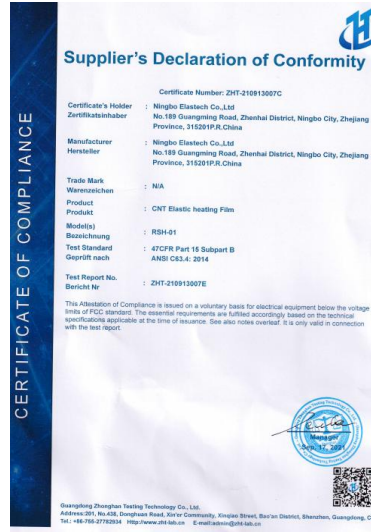

We evaluate each material supplier and proceed different quality inspection for each material before producing. All in-house inspections with records, material with defects are not allowed to use for production.

Our testing LAB is certificated ,can do most physical tests by ISO standard.

Before production, we test materials in-house to make sure all products meet standard requests.

Audit Certificates

Design&RD Team

1. More than 20 designers attention to customers' product positioning and needs,provide suitable design.
2. Interactive research and development for forefront technologies,to make sure you always stay ahead of others.
- 3.We not only cooperate with the college, but also cooperate with designers and engineers in many countries, and can tailor your needs to you

Best Solution For You

Standardized product

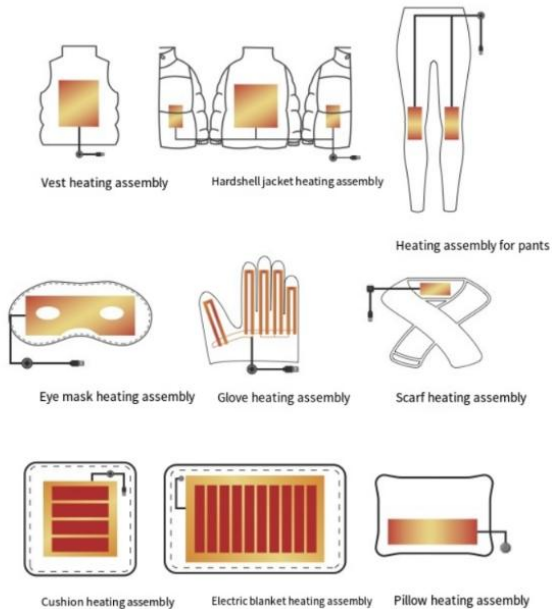

Standard products can be directly applied and integrated into your product line, greatly reducing development cycles and development costs.

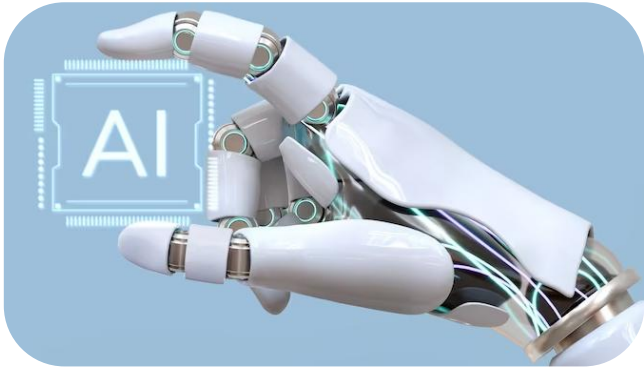

Customized product

In order to meet your customized needs, we accept customizations including appearance, color, accessories, product attributes etc

Finished solution

We have a variety of solution to help you fast-forward to gain more market

Our Advanced Technologies

Yubin work with the Chinese Academy of Sciences, we stands at the forefront of technology innovation, owing to our investments in heating/cooling technologies. Combining the synergy of material science, advanced manufacturing and the technical knowledge of our in-house team, we offer the latest developments & manufacturing processes.

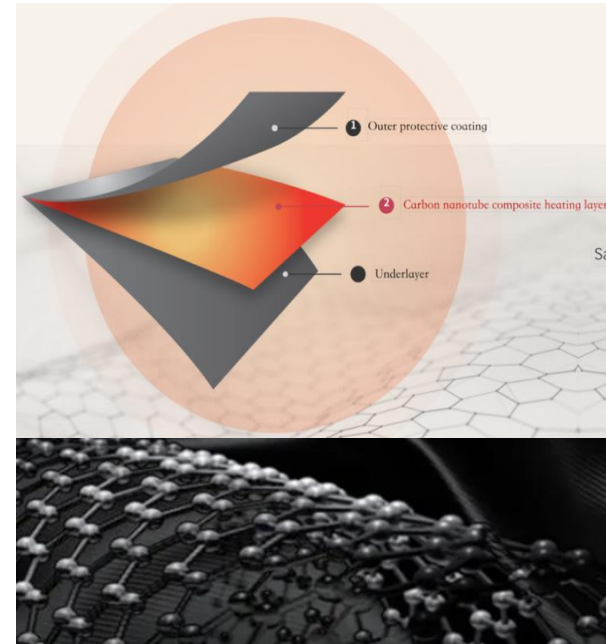

APP Control

- Temperature adjustable
- Timed shutdown
- Intelligent mode

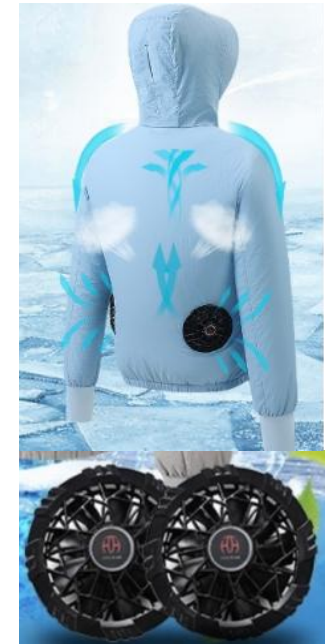

Carbon fiber heating

- Satable and safe
- 3 different levels
- Customized heated zone

Carbon Nanotube Composite Film

- Rapid temperature sensing
- Soft without foreign body sensation
- Machine washable

Cooling Air conditioned

- Quick Cooling
- Light Weight
- Brushless fans don't make noise

WIDERANGE OF PRODUCT

We are a manufacturer who provides our customers to have many products under same roof.

INNOVATION AUTOMATION

Upgrade ourselves to improve your product.

STRATEGIC MANUFACTURING

Make the right product at the right place.

OUR VALUABLE ASSETS

A people company with ethical culture.

A man with dark hair, wearing a white jacket and a black backpack, is shown in profile, looking down. The background is a bright, hazy outdoor setting. The word "THANKS" is overlaid in large, bold, black capital letters across the center of the image.

THANKS
